## This Spring Change Is In The Air... Meet Our New Leadership Team

### *Introducing People's Health Clinic* **New Leadership Team Members!**

#### **Meet Mairi Leining, MD, our new Chief Executive Officer**

Park City, UT (March 3, 2022) – Mairi Leining, MD, current Medical Director at People's Health Clinic, will be taking over as Executive Director. Dr. Leining replaces Beth Armstrong who started a new position with the Intermountain Foundation in January after serving as Executive Director since 2016. "I couldn't be happier to pass the reins to Mairi! She has been passionately committed to the Clinic's mission to provide quality healthcare to the uninsured families of Summit and Wasatch counties as a volunteer medical provider and then Medical Director, following Dr. John Hanrahan", said Beth. "People's Health Clinic has an exceptional team of passionate employees and volunteers who elevate healthcare for our uninsured community members. I am honored and excited to lead this talented team as we achieve our vision of health equity," said Dr. Leining.

#### **Meet Yoon Kim-Butterfield, MD, our new Chief Medical Officer**

Dr. Yoon Kim-Butterfield is a board-certified internal medicine physician. As part of her primary care practice, she specializes in diabetes management, hypertension, lipids, and obesity management. She also is interested in narrowing health inequalities and has a particular interest in cross-cultural medicine.

Dr. Kim-Butterfield completed her medical education at the University of Illinois Chicago, where she graduated with honors. Her residency was at Harvard University Hospital - Beth Israel Deaconess Medical Center, followed by a Clinical Endocrinology Fellowship at Stanford University Hospital.

Dr. Kim-Butterfield loves forming lasting relationships with her patients. She enjoys seeing her patients' health improve, and as a result- seeing their quality of life improve. She is passionate about improving access to healthcare and supporting in any way those who are voiceless in our society. Yoon, enjoys camping, hiking, and skiing with her family.

#### **Meet Ryan Newcomb, our new Chief Development Officer**

For over 14 years, Ryan has worked as a nonprofit leader in fundraising, philanthropy and organizational development. As a nonprofit fundraising professional, he has worked in national, regional and grassroots leadership creating new and diverse funding sources; working with board leadership and diverse sets of partners and stakeholders.

Ryan has collaboratively overseen the generation of over \$20 million in revenue since 2009. Ryan graduated from the University of North Texas before working for the President of the United States as a White House Appointee. From there, he turned his passion for politics into raising funding and support for causes near and dear to his heart. He is a proud Eagle Scout, native Texan and loves to spend his free time trail running, hiking and playing with his dogs.

# WELCOME NEW BOARD MEMBERS TO PEOPLE'S HEALTH CLINIC FAMILY!

**Deann Morgan** joined the People's Health Clinic's Board of Trustees in 2021. She appreciates the impact the foundation has on many people's lives and the community in general. She is looking forward to leveraging her decades of experience in financial services and asset management to contribute in serving on the Finance Committee.

Previous roles include COO - Multi-Asset Investing, Blackstone and CEO - Merrill Lynch Alternative Investments. She chairs the board overseeing several registered Nuveen funds and served on the Finance Committee for the board of the Foundation for Child Development. Deann relocated from New York City to Park City in 2020 with her husband, Paul Morgan, and their two daughters. They appreciate Park City's amazing culture and have been enjoying the outdoors—hiking, biking and skiing.

**Stacey Rauch** joined the People's Health Clinic Board of Trustees in 2022 because she is passionate about the clinic's mission to provide high quality healthcare to the uninsured in our community. Stacey is a Senior Partner Emeritus of McKinsey & Company from which she retired after serving clients in the US and internationally for 24-years. She

was a leader in the Firm's Retail and Consumer Goods Practices and served as the head of the North American Retail and Apparel Practice.

Since her retirement from McKinsey, Stacey has served as a public and private company director in the U.S. and U.K. She currently serves as chairman of the board of the Fiesta Restaurant Group, Inc and as a director of Heidrick & Struggles, Inc. She graduated summa cum laude from the Wharton School of the University of Pennsylvania with a B.S. in Economics and holds an M.B.A. from the Wharton School. Stacey and her family love Park City – particularly skiing, hiking, biking, and playing pickleball.

**Margo Georgiadis** joined the People's Health Clinic Board of Trustees because she is passionate about the clinic's mission to democratize access to high quality health care.

Margo is an active investor and company builder at the intersection of healthcare and technology. She is a Managing Partner at Synetro Group and an

Endurance Partner at General Catalyst. Prior to her investing career, Margo served as a senior leader at multiple market innovators including President and CEO of Ancestry, President of Americas at Google, COO of Groupon and a Partner at McKinsey & Company.

Margo has extensive experience as a public, private and nonprofit board member and currently serves on Boards including McDonald's Corporation, AppLovin, Handshake, Workboard, Ro Health, Evvy, and Catalyst. She earned a BA in economics and an MBA from Harvard.

She and her family love Park City - all things outdoors as well as the vibrant music and art community.

**Yuri Jenson** has a strong background in family and community engagement, parent mentoring and social work. She has experience working with a broad range of stakeholders in both public and private sectors to coordinate educational and recreational activities for families.

Yuri is a proud U.S. citizen who emigrated from Mexico. When she started her journey in this country in 2008, she realized how much help is needed for those who represent minorities. Because of this, she has been taking greater responsibility each year, helping immigrant, refugee and isolated families learn how to advocate for themselves through education, collaboration and community engagement. Currently, Yuri serves as the Chair of the Wasatch Latino Coalition and works for Wasatch County School District."

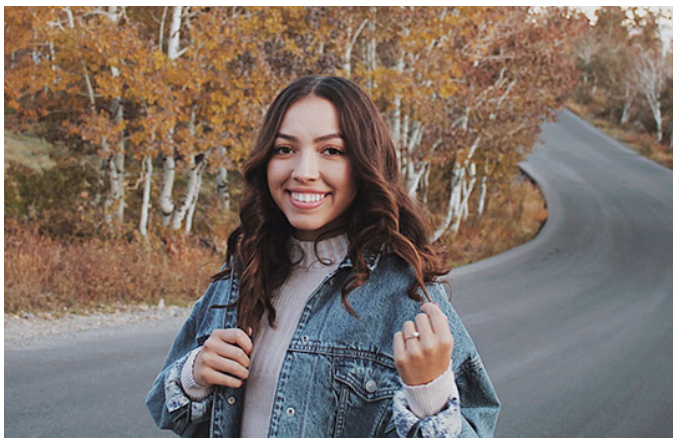

## Hypertension Certification Program by Tristan Lubina, DNP

In 2021, People's Health Clinic hired Tristan Lubina, who implemented a hypertension management program. Since then, PHC providers have seen over 200 patients diagnosed with hypertension. The hypertension program has made it possible to give out home blood pressure monitoring cuffs to patients, improve medication compliance, allow for quicker follow-up, and has increased the hypertension control rate to 80%. We have also joined Target: BP™, a national initiative formed to manage hypertension by the American Heart Association (AHA) and the American Medical Association (AMA). We are reaching high levels in our hypertension management and have applied for two awards in order to share our success with other clinics in our community.

## Joanna UDOH Grant Health Worker

My name is Joanna Saucedo, and I am a Community Health Worker for the People's Health Clinic. With the support of a grant from the Utah Department of Health, my position seeks to address health inequities within our community. In addition, I will be implementing an outreach program to connect our diabetic patients with services and quality care through our clinic. I am a senior at the University of Utah and will be graduating with a degree in Health and Kinesiology with an emphasis in Community Health. I grew up in Park City, Utah, and I'm excited to start helping my community lead and live healthy lives. I enjoy watching movies, hiking, and playing beach volleyball in my free time.

## People's Health Clinic wants to congratulate our very own, Rachelle Flinn, PA, on being accepted at the Utah Academy of Physician Assistants 32nd Annual John Allen Memorial Conference as a podium speaker at this prestigious event.

Rachelle will be presenting at the Utah Academy of Physician Assistants in St. George the first week in April 2022. Her lecture topic is "What's New in Emergency Contraception". She hopes to empower PAs who attend the conference with the knowledge and resources they need to be able to provide patient centered emergency contraception (EC) counseling and management in their clinics. Family planning is an important field in modern medicine and EC is a critical part of the scope family planning.

"I am passionate about family planning services and so I am excited to have the opportunity to share my passion, knowledge and experience with EC with my colleagues during this conference."

## Annual Appeal Donors raise \$101 K for 2022

In the spirit of this last Valentine's Day, the National Charitable League helped write Valentines to all of our Annual Appeal Donors-to thank them for all their support in raising \$101 K this year.

## People's Health Clinic is Proud to Partner with Early Childhood Alliance

March 2022

All children deserve the best opportunities in their earliest years to thrive, learn, and grow. Here in the Wasatch Back, the **Early Childhood Alliance** has been helping prioritize and amplify this message since 2018.

What started as a **Park City Community Foundation** task force has grown into an alliance of community members, local nonprofits, childcare providers, mental and physical health providers, educators, parents, and donors—all striving for accessible, high-quality, equitable outcomes for children from the prenatal stage through age three.

Alongside advocating for legislative changes that will directly benefit families in our community, and gathering data on important issues affecting early childhood education and development, the Alliance actively supports early years parenting and education through a range of community partnerships. People's Health Clinic is grateful to partner with Early Childhood Alliance on providing diapers to the

homes of those who need them most in Summit and Wasatch Counties. We also are collaborating with **Early Childhood Alliance** to create a video to promote our "Welcome Home Baby" program that provides free home visitation and education for new moms and their babies with the goal of Pre-K and Kindergarten readiness.

If you're a parent to, or caregiver of, young children—or a provider of early childhood services—here are two inspiring initiatives to be aware of:

**Dolly Parton's Imagination Library** mails free, age-appropriate, high-quality books each month to children under age five, without any other restrictions or eligibility criteria. These books are delivered directly to children's homes, so rural and urban communities can benefit from enrolling in the program. If you live in Summit County and have a child under five years old, find out more and register at [earlychildhoodalliance.net/imagination-library](http://earlychildhoodalliance.net/imagination-library).

**Utah Diaper Bank** does incredible work distributing diapers to families in need across our state. The Early Childhood Alliance is proud to partner with them and local community organizations including People's Health Clinic to get diapers into the homes of those who need them most here in the Wasatch Back. If you're a local provider who connects with new parents and caregivers, and you'd like to join the distribution list, please email Kristen Schulz (Early Childhood Alliance Coordinator) at [kschulz@pctots.org](mailto:kschulz@pctots.org).
