Healthcare That Heals: A Cardiovascular Milestone

Your generosity helps us deliver world-class care in our mountain town. In 2024, our Hypertension Program, led by our exceptional Director, Tristan Lubina, DNP, achieved a major benchmark:

- 474 hypertension patients actively managed
- 79% blood pressure control rate—a success rate higher than most U.S. clinics
- Recognized with our fourth consecutive Platinum Award from *Utah Million Hearts*
- Expected to receive our fourth Gold+ award from the *American Heart Association's Target: BP* initiative
- Program expansion supported by over 80 donated home monitors and a \$1,000 grant for a new EKG machine

We're proving that equitable, preventive care is possible with innovation, commitment, and your support.

Welcome To Our Growing Team!

We're always working to enhance our team so we can serve you better. Please join us in welcoming:

- Emylee Palominos and Yaretzy Holguin, Patient Intake Specialists
- Carlos Vega and Claire Caldwell, Medical Assistants

A Bright Future Ahead

We're thrilled to share that **Sarah Thompson, MPH**, our incredible AmeriCorps volunteer and Medical Assistant, has been accepted to the **University of Utah School of Medicine**! Sarah's dedication to community care and her impact at PHC have been extraordinary. We are so proud to be part of her journey toward becoming a physician.

Your Support Is Creating a Healthier Community

Your Involvement Is So Very Appreciated

None of this would be possible without you. Whether you attend an event, make a donation, share your time, or simply believe in the power of healthcare for all—you're part of this story.

Together, we are creating healthier families, a stronger community, and a future where access to care is not a privilege, but a right.

With gratitude,
